Edison, New Jersey, USA | meetul.t@gmail.com | linkedin.com/in/mitultailor | **U.S. Green Card Holder**

PROFESSIONAL SUMMARY

17 years in enterprise IT operations. 11 years as the senior on-site IT authority for Korn Ferry's Mumbai executive hub — world's largest executive search and leadership advisory firm (52 countries) — owning service delivery, endpoint lifecycle, and operational governance for a distributed workforce across Mumbai, Bangalore, and remote India locations. ServiceNow practitioner across all core ITSM modules throughout. ITIL v4 certified. 98%+ SLA compliance. 100% CMDB accuracy. 100% Day-1 readiness on every hire.

CORE COMPETENCIES

IT Operations Leadership	ServiceNow ITSM Platform	ITIL v4 Service Management
End-User Computing (EUC)	White-Glove VIP Support	Process Standardization
CMDB & Asset Governance	Hire-to-Retire Program Ownership	Incident & Escalation Command
Windows & MacOS Endpoint Mgmt	SLA & KPI Performance Tracking	On-Site Vendor Coordination

PROFESSIONAL EXPERIENCE

IT Operations Lead — EUC & Infrastructure | Korn Ferry | Mumbai, India *Oct 2013 – Oct 2025 World's largest executive search and leadership advisory firm, 52 countries. On-site IT authority for the Mumbai executive hub. Infrastructure, network, server, and identity functions managed by specialist central teams. Full on-site service delivery and operational accountability.*

- **Service Delivery & SLA:** 98%+ SLA compliance as the sole on-site escalation point for all incidents, service requests, and executive-priority issues across an 11-year engagement.
- **ServiceNow ITSM:** Sole practitioner across incident, change, problem, request, asset, and CMDB modules throughout. Maintained data accuracy and process discipline as the on-site platform operator of record.
- **Endpoint Lifecycle:** Owned Windows and MacOS endpoint fleet — imaging, configuration, deployment, hardware viability assessment, reallocation, and secure decommissioning. Field support extended to Bangalore and remote India locations.
- **White-Glove VIP Support:** High-touch technology support for Senior Partners, Managing Directors, and global executives. Zero-downtime standard maintained throughout.
- **Process Standardization & Hire-to-Retire:** Standardized end-to-end onboarding/offboarding IT process. 100% Day-1 readiness on every hire. Clean access revocation on all departures, zero exceptions.
- **CMDB & Asset Governance:** 100% CMDB accuracy — hardware viability, reallocation decisions, imaging, deployment, and secure decommissioning maintained for over a decade.
- **Office Relocation IT Coordination:** On-site IT lead for 4 Korn Ferry Mumbai office reallocation projects (2015–2023). Latest relocation served 50–55 staff — endpoint migration, device reconfiguration, user profile transfers, and Day-1 readiness delivered with zero operational disruption each time.
- **Access Coordination:** Coordinated AD provisioning and revocation with central identity team via global ServiceDesk process for all workforce lifecycle events.
- **Operational Reporting:** SLA compliance, incident resolution, and asset integrity reported to regional and global IT leadership on a defined cadence.

Senior Infrastructure Support Engineer | Team Computers | Mumbai, India *Jul 2012 – Sep 2013*

- Tier 3 escalation management, enterprise hardware deployments, and vendor coordination across high-profile client sites within strict SLA timelines.
