PROFESSIONAL SUMMARY

Results-driven **IT Operations & End User Computing (EUC)** with **17+ years of progressive IT experience** supporting enterprise-scale environments, including **11+ years at Korn Ferry**, a global organizational consulting firm. Proven ability to **run IT operations like a business** - driving SLA compliance, incident reduction, asset governance, and high-quality employee experience.

Hands-on leader with deep expertise in **ITIL-aligned service management, ServiceNow, Microsoft 365, Active Directory, endpoint lifecycle management, vendor management, and infrastructure support**. While formally ITIL 4 Foundation certified in 2026, ITIL best practices have been **embedded in daily operations throughout my career**.

Known for operating at a **managerial level despite an individual contributor title**, consistently trusted with ownership of EUC operations, CMDB accuracy, onboarding programs, VIP support, and vendor coordination. **U.S. Green Card holder**, immediately eligible for employment.

CORE COMPETENCIES

- IT Operations Management
- End User Computing (EUC)
- ITIL v4 (Incident, Problem, Change, Request)
- ServiceNow (Incident, Request, Asset, CMDB)
- SLA / KPI Management
- Endpoint & Device Lifecycle Management
- Microsoft 365 Administration
- Active Directory / Azure AD (Foundational)
- Asset & Configuration Management (CMDB)
- Vendor & Contract Management
- On - boarding / Off - boarding Programs
- VIP & Executive Support
- IT Service Delivery
- Infrastructure & Desktop Operations
- Continuous Service Improvement (CSI)

EXPERIENCE

OCTOBER 2013 – SEPTEMBER 2025

INFORMATION TECHNOLOGY SERVICE ENGINEER (IT OPERATIONS / EUC LEAD),
KORN FERRY INTERNATIONAL

IT Service Management & Operations –

- Owned the **end-to-end Incident, Request, and Asset lifecycle** using ServiceNow, maintaining **98% SLA compliance** and strong First-Call Resolution metrics.
- Applied **ITIL-aligned practices** daily (Incident, Problem, Change, Request) years before formal certification. Reduced recurring incidents by proactively identifying root causes and coordinating fixes across infrastructure, vendors, and global teams.

End User Computing (EUC) Leadership –

- Led **on - boarding and off - boarding operations**, ensuring 100% Day-1 readiness through coordinated hardware deployment and Microsoft 365 / Active Directory provisioning.
- Managed and supported **30 - 40+ enterprise endpoints**, executing refresh cycles that reduced hardware-related incidents.
- Delivered white-glove **VIP and executive support**, ensuring minimal downtime for senior leadership.

CMDB, Asset & Vendor Management -

- Served as **primary CMDB and asset owner**, achieving **100% asset accuracy** through disciplined tracking, audits, and lifecycle controls.
- Managed third-party vendors for procurement, maintenance, and hardware refresh programs, improving turnaround time and cost efficiency.

Infrastructure & Advanced Support -

- Resolved complex **Windows OS & MacOS, hardware, and peripheral** issues across onsite and remote environments.
- Ensured high availability of local infrastructure through preventative maintenance and proactive monitoring.

Leadership Without Title -

- Acted as a **single point of accountability** for local IT operations, Coordinating with global IT leadership.
- Trusted with operational decisions typically owned by IT Managers, despite IC designation.

JULY 2012 – SEPTEMBER 2013

RESIDENTIAL ENGINEER (SENIOR SUPPORT / INFRASTRUCTURE), TEAM
COMPUTERS

Managed **enterprise hardware deployment and secure decommissioning**, ensuring compliance and data protection.

Led **vendor coordination**, including SLAs and escalation management, to reduce downtime.

Functioned as **Tier 3 escalation** for Windows, Windows Server, and MacOS issues.

Served as **primary responder for VIP support and office-wide outages**.

JULY 2011 – JULY 2012

TECHNICAL SUPPORT ENGINEER, SAM INFOTECH

- Installed and managed enterprise hardware, software, and network infrastructure.
- Deployed and configured **routers, switches, and LAN/WAN environments**.
- Coordinated with vendors for procurement and escalated technical issues.
- Resolved high-impact outages via remote diagnostics and onsite engineering.

JUNE 2009 – JULY 2011

CUSTOMER TECHNICAL SUPPORT ENGINEER, LYM COMPUTERS

- Built and supported network environments including routers, switches, and servers.
- Managed full IT asset lifecycle from deployment to decommissioning.
- Delivered rapid resolution of complex infrastructure outages.

EARLY CAREER EXPERIENCE

MAY 2007 – JUNE 2008

**SALES EXECUTIVE – INDIABULLS | CUSTOMER SERVICE REPRESENTATIVE –
RELIANCE COMMUNICATIONS**

- Early foundation in stakeholder management, customer communication, and operational discipline, now leveraged in executive IT support and vendor management.

CERTIFICATIONS

- ITIL® 4 Foundation – KnowledgeHut UpGrad (2026)

EDUCATION

DECEMBER 2013

**BACHELORS IN COMPUTER APPLICATION, YASHWANTRAO CHAVAN
MAHARASHTRA OPEN UNIVERSITY**

DECEMBER, 2008

HIGH SCHOOL, COMMERCE, MUMBAI UNIVERSITY

SKILLS

- **Operating Systems:** Windows XP–11, Windows Server 2003+
- **Service Management:** ServiceNow (Incident, Request, Asset, CMDB)
- **Productivity & Collaboration:** Microsoft 365, Outlook, Teams

- **Networking:** LAN/WAN, Routers, Switches
- **Tools:** Active Directory, Exchange Server 2003, CRM systems

KEY ACHIVEMENTS

- 17+ years of progressive IT experience across enterprise environments
- 11+ years of sustained performance at Korn Ferry
- 98% SLA compliance across incident and request management
- Reduction in hardware-related incidents through lifecycle refresh strategy
- 100% CMDB and asset accuracy ownership

PROFESSIONAL BRAND

Hands-on **IT Operations & EUC leader** ready to step into a formal **Manager role**, bringing maturity, ownership, and operational excellence to modern enterprise IT organizations.
